

Intro to Strategic Sustainability (1CM, Free Webinar 120611)

Are you interested in a 1-hour, web-based introduction to strategic sustainability planning? If so, the Natural Step Network USA will hold a free, 1-hr, introductory webinar (1CM) on December 6, from 4-5 pm (PST). [Sign up](#) (scroll to bottom of page).

Introduction to The Natural Step Network

This 1-hour general orientation is a concise overview of The Natural Step Framework and how it has been used by organizations and communities. The presentation will describe the core components of the Framework: Systems thinking, Sustainability Principles and backcasting methodology. You'll learn how these components are used to coordinate actions and continuously move your organization closer to achieving its vision. Participants will have the opportunity to ask questions and learn about additional resources available to their organizations.

If you missed the webinar, go [here](#) for additional options/resources.
