

Parking Policy Workshop

AB904 would have created parking minimums in certain areas of communities with transit service. It was not acted on during this year's legislative session. Join your fellow planners and policy makers to discuss ways to improve the proposed legislation at the Joseph P. Bort Metro Center in Oakland on November 9th. Workshop comments and recommendations will be forwarded to state legislators and the APA California Chapter Policy and Legislative Committee. This event is co-sponsored by the Metropolitan Transportation Commission (MTC). The full [event announcement](#) is on the upcoming events page.
