

Register now for 2021 Mentorship Program

By Ellen Yau, October 13, 2020

APA California - Northern Section is excited to kick off its 2021 Mentorship Program. Registration is open now until the end of November 2020.

Our career development program offers one-on-one mentorship matching between mentees and mentors. The program aims to build relationships, enhance the knowledge base, and connect planning professionals to those who share our experience as California planners. Sign up to be a mentor or to be matched with a mentor for the 2021 mentorship class.

Please visit the [Mentorship Program webpage](#) for program requirements and more information.
