

## City of Sacramento - Associate Planner

The City of Sacramento is hiring an Associate Planner to perform professional, technical, statistical, and analytical duties involving land use or other planning studies for a variety of public or private development projects.

The scope of assignments includes project management work, land use studies, policy development recommendation, revision or implementation, and preparation of a variety of documents for compliance with state or federal environmental laws. The groups in the Planning Division include Long Range Planning, New Growth, Current Planning, Historic Preservation, Design Review, Zoning Administrator, and Environmental Planning Services.
