

\$5,970-\$8,544/Month

Do you want to help shape the future of the County of San Mateo? If so, we have an exciting opportunity for you. The Planning and Building Department is currently seeking to fill two full-time permanent Planner II/III positions.

As a Planner II/III with the County of San Mateo, you will be an integral part of the Planning and Building Department, have an opportunity to manage a variety of complex development projects throughout our dynamic and beautiful County, and participate in or lead long-range planning efforts. The County of San Mateo has diverse landscapes ranging from urban to rural to wilderness that extend from the Bayside hills and urban neighborhoods to the beaches and coastal bluffs bordering the Pacific Ocean. We're graced with both scenic natural beauty and the excitement of a cosmopolitan community. Just as diverse as the County's landscapes are the interests of the community, and this is what makes the County a dynamic place to work. If you have a passion for urban planning, thrive in a fast-paced work environment and value teamwork, come join our Planning Division where you will be part of a team of bright, collaborative and enthusiastic planners.

In addition to managing entitlements for a wide range of projects, the incumbent may work on a variety of long-range planning and policy projects, such as a Coastal Area transportation plan, our green infrastructure plan and updates to general plan policies and zoning regulations.

The ideal candidate is a team player and independently-motivated individual, responsible for overseeing permitting for complex development projects, long-range planning studies and the interpretation/development of policies and ordinances. The candidate is an excellent communicator (both written and verbal) who can develop consensus and successfully work with a diverse community. The candidate can manage and prioritize multiple tasks in a timely manner as well as provide guidance to other members of the staff and the public. The candidate emphasizes interdepartmental/interagency coordination and communications and continually looks for innovative and creative process improvements that generate more consistent and transparent outcomes. Experience in transportation or resource management planning is desirable, but not required.

Planners research and analyze planning data, conduct long range planning studies, review development applications for compliance with adopted plans and regulations, prepare staff reports and environmental documents, and assist in land use and zoning administration for current and future community projects in the Planning and Building Department.

Planner II is the fully experienced journey-level role. Under general supervision, incumbents perform a full range of planning activities and exercise substantial independence and initiative in carrying out their assignments.

Planner III is the advanced journey-level role in the Planner Series. Under direction, incumbents carry out the major and more complex land use projects in all sections of the Division. Incumbents provide direction to other professional staff on projects and operate with independence within the parameters of legislative and divisional policy.

A typical way to qualify includes:

- Planner II: Two years of professional planning experience
- Planner III: Three years of professional planning experience

Final Filing Date: November 5, 2018
